United States of America

Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate

Number SA2113CE

This certificate, issued to Central Air

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 3 *of the* Civil Air *Regulations.*

Original Product — Type Certificate Number: 6A1

Make: Gulfstream American

Model: 500-B, 500-S

Description of Type Design Change: Installation of single Gill G-247 24-volt battery as a replacement for original dual 12-volt batteries in accordance with Central Air Charter document "Gill Battery Installation For 500B and 500S Commanders," dated June 6, 1985, or later FAA approved revision.

Limitations and Conditions: Incorporation of other modifications on these airplanes should not be approved unless it is determined that the inter-relationship between this change and those being incorporated will introduce no adverse effect upon the airworthiness of the airplane.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: November 28, 1984

Date of issuance: June 6, 1985

Date reissued:

Date amended: November 17, 1987

By direction of the Administrator
