United States of America

Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate

Number SA1989CE

This certificate, issued to R. C. Allen Instruments, Inc.
535 S. Topeka
Wichita, KS 67202

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 23 *of the* Federal Aviation *Regulations.*

Original Product — Type Certificate Number: A27CE

Make: Cessna

Model: 551

Description of Type Design Change: Installation of the AID/RCAI Battery Temperature Monitor on the optional 20 cell battery as a secondary system in accordance with AID/RCAI Installation Instructions Kit No. 29-310, revised July 30, 1980, and Airplane Flight Manual Supplement for Cessna Model 551 dated April 27, 1984, or later FAA Approved revisions.

Limitations and Conditions: This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated, unless it is determined by the installer that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: April 2, 1980

Date reissued: August 21, 1991

Date of issuance: October 11, 1984

Date amended:

By direction of the Administrator
