United States of America

Department of Transportation—Federal Aviation Administration

Supplemental Type Certificate

Number SH463NW

This certificate, issued to Measurement Systems International, Inc.

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 29 *of the* Federal Aviation *Regulations:* February 1, 1965.

Original Product—Type Certificate Number: H4SW

Make: Bell

Model: 212 and 412

Description of Type Design Change:
Installation of an electronic weighing system (for monitoring cargo weight) in accordance withh Measurement Systems International Installation Drawings D00416 or D00469.

NOTE: No change to FAA approved Rotorcraft Flight Manual Supplement.

Limitations and Conditions: Approval of this change in type design applies basically to the above model aircraft only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate shall be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: April 22, 1977

Date reissued:

Date of issuance: June 10, 1977

Date amended: August 31, 1977; August 19,1980
October 2, 1987
