United States of America

Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate

Number SA82NW

This certificate, issued to AEROAMERICA, INC.

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 4b *of the* Civil Air *Regulations*, dated December 1953 (See T.C. Data Sheet 4A28)

Original Product — Type Certificate Number: 4A28

Make: Boeing

Model: 720 and 720B

Description of Type Design Change:

Installation of Navigators Station in accordance with FAA Sealed American Aviation Services, Inc., Drawing No. AAS1-10001, Revision A, Sheets 1 and 2.

Limitations and Conditions: The approval of this change in type design applies basically to the above model aircraft only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate shall be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: November 19, 1973

Date of issuance: December 11, 1973

Date reissued: August 11, 1975

Date amended: September 23, 1974

By direction of the Administrator
