United States of America

Department of Transportation—Federal Aviation Administration

Supplemental Type Certificate

Number SH5200NM

This certificate, issued to **Air Methods Corporation**

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 29 *of the* Federal Aviation *Regulations.*

Original Product—Type Certificate Number: H4SW

Make: Bell Helicopter Textron

Model: 412, 412EP (S/N: 36087 & Subsequent), 412CF (S/N: 46400 & Subsequent)

Description of the Type Design Change:

Installation of main rotor electrostatic bonding straps in accordance with Air Methods Corporation Master Drawing List No. 141-9006, revision N/C, FAA approved December 7, 1990, or later approved revision.

Limitations and Conditions:

Approval of this change in type design applies to the above model aircraft only. This approval should not be extended to aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate or later FAA approved revision, must be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: November 16, 1990

Date of issuance: December 7, 1990

Date reissued:

Date amended: March 8, 1995

By direction of the Administrator
