Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate

Number SA2631NM

This certificate, issued to AAR Oklahoma, Inc.

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 3 *of the* Civil Air *Regulations.*

Original Product — Type Certificate Number: 3A21

Make: Cessna

Model: T210N

Description of Type Design Change: Installation of a Harrison Intercooler (Cessna P/N 633400) system in accordance with FAA sealed AAR Western Skyways Master Drawing List No. 210-1000, dated July 26, 1984.

Limitations and Conditions: Data pertaining to this modification are considered inadequate for duplication in other aircraft. This approval is limited to the installation of the Harrison Intercooler (Cessna P/N 633400) system on Cessna model T210N aircraft, Serial Number 21063958, Registration Number N4594Y only. The modified airplane must be operated in accordance with the FAA Approved Airplane Flight Manual Supplement dated July 26, 1984, or later FAA approved revision. A copy of this Certificate and the FAA approved Flight Manual Supplement must be carried in the modified airplane at all times.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: January 24, 1984

Date reissued: July 22, 1988

Date of issuance: August 17, 1984

Date amended:

By direction of the Administrator

David G. Hinrich
