United States of America

Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate

Number SA780WE

This certificate, issued to Jay-Dee Aircraft Supply Co., Inc.
A California Corporation

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 4b *of the* Civil Air *Regulations.* (See Aircraft Specification 6A6)

Original Product — Type Certificate Number: 6A6
Make: GENERAL DYNAMICS
Model: 340 and 440

Description of Type Design Change:

Modification of Yoke Assembly - Pilot and Co-Pilot Control per Pacific Airmotive Sealed Drawing 9026303.

Limitations and Conditions: The approval of this change in type design applied basically to the standard 340/440 only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. This determination should include consideration of significant changes in weight distribution such as an increase in the fixed disposable weight in the fuselage.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: 23 July 1964 *Date reissued:* 21 December 1970

Date of issuance: 4 September 1964 *Date amended:*

By direction of the Administrator
