Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate

B

Number SA1752NM

This certificate, issued to Bert Morgan

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 8 *of the* Civil Air *Regulations.*

Original Product — Type Certificate Number: 1A16

Make: Grumman

Model: 164A

Description of Type Design Change: Installation of a long wing in accordance with Aero Mod General Top Drawing List 80-1.

Limitations and Conditions: Approval of this change in type design applies to the above model aircraft only. This approval should not be extended to aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate shall be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: April 28, 1980

Date reissued:

Date of issuance: March 3, 1983

Date amended:

By direction of the Administrator

Lester H. Berven
