Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate

Number SA3847NM

This certificate, issued to Sorm, Inc.

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part *of the* Aero. Bulletin 7A. *Regulations.*

Original Product — Type Certificate Number: A-618

Make: Douglas

Model: DC-3

Description of Type Design Change: Installation of Cargo Floor in accordance with Sorm, Inc. Drawing List SI-22000, Revision N/C or later FAA approved revision.

Limitations and Conditions: The cargo floor must be loaded in accordance with Sorm, Inc. Report SI-2210, Revision N/C. The approval of this change in type design applies basically to the above model aircraft only. This approval should not be extended to aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate and Sorm, Inc. Drawing List SI-22000 shall be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: February 28, 1986

Date of issuance: June 4, 1987
