certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 6 *of the* Civil Air *Regulations.*

Original Product—Type Certificate Number: 4H12
Make: Schweizer Aircraft Corporation
Model: 269A, 269A-1, 269B, 269C, and 269C-1

Description of the Type Design Change: Fabrication of Precision Helicopters Model 4887 Cargo Rack System in accordance with Federal Aviation Administration (FAA) approved Precision Helicopters Master Drawing List No. PHI-4887-MDL, dated October 28, 1997, or later FAA approved revision; and Installation of this system in accordance with FAA approved Precision Helicopter Installation Instructions No. PHI-97011, Revision "A," dated July 29, 1997, or later FAA approved revision.

Limitations and Conditions: Approval of this change in type design applies to only those Schweizer model rotorcraft listed above. This approval should not be extended to other rotorcraft on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that rotorcraft. Modified rotorcraft must be operated in accordance with FAA approved Rotorcraft Flight Manual Supplement (RFMS), dated November 3, 1997, or later FAA approved revision. A copy of this Certificate and FAA approved RFMS must be maintained as part of the permanent records for the modified rotorcraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
