Mr. Mac S. Speed
Electronics International, Inc.
63296 Powell Butte Highway
Bend, OR 97701

Dear Mr. Speed:

The Federal Aviation Administration (FAA) completed the evaluation of your proposed amendment to the Approved Model List (AML) to Supplemental Type Certificate (STC) SA00068SE, Electronics International Fuel Flow/Pressure Instruments, and find that you have demonstrated compliance with the applicable airworthiness regulations. Accordingly, we have enclosed amended AML SA00068SE, dated October 20, 2010.

Since I am very much interested in the service we provide to the aviation community and the general public, it would be helpful if you would provide your thoughts and comments regarding how the approval process went. To gather this information, we have enclosed a short survey (with a self-addressed, stamped envelope) that I hope you will fill out and return. You will note that the return envelope is addressed to me. You may rest assured that your comments will receive my full attention and that I will hold your comments in strict confidence, should you request I do so. Please note that this survey is common to all Aircraft Certification Offices within the FAA's Aircraft Certification Service and is aimed at enabling the Aircraft Certification Service to deliver the best services.

If you have any questions, please contact Mr. Walter Cameron, Aerospace Engineer with the Systems and Equipment Branch, at telephone number (425) 917-6460.

Sincerely,

for Robert D. Breneman
Acting Manager, Seattle Aircraft
Certification Office
