Priest River, ID 83856

*certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part * of the * Regulations.*

Original Product—Type Certificate Number: *See attached FAA Approved Model List (AML)

Make: No. SA00066SE for a list of approved airplane

Model: models and applicable airworthiness regulations.

Description of the Type Design Change: Fabrication of Aerocet interchangeable float spreader bars in accordance with FAA Approved Aerocet Master Drawing List No. 26-32100, dated December 9, 1993, or later FAA approved revision. Installation of replacement spreader bars in accordance with Aerocet Installation Guide No. A-10013, dated December 8, 1993, or later FAA approved revision.

Limitations and Conditions: Approval of this change in type design applies to the airplanes and factory installed or STC'd float combinations listed on the AML only. This approval should not be extended to other aircraft of these models on which other previously approved modifications are incorporated unless it is determined by the installer that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate, and FAA Approved Model List, must be maintained as part of the permanent records for the modified aircraft. (See Continuation Sheet page 3.)

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
