United States of America

Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate

Number SA00079SE

This certificate, issued to Aviation Development Corporation

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 23 *of the* Federal Aviation *Regulations.*

Original Product — Type Certificate Number: See

Make: Approved

Model: Model List

Description of Type Design Change: Addition of a low oil pressure warning light to the Aviation Development Corporation (ADC) oil filter installed per STC SA4172NM. This modification is in accordance with the drawings and installation instructions specified on the FAA Approved Model List (AML) of this STC dated September 7, 1994, or later FAA approved revision.

Limitations and Conditions: Approval of this change in type design applies to the above model aircraft only. This approval should not be extended to other aircraft of these models on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate must be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: November 9, 1993

Date reissued:

Date of issuance: August 12, 1994

Date amended: September 7, 1994

By direction of the Administrator
