

[Docket No. 10536; Amdts. 61-51; 63-12; 65-16; 67-3; 141-9; and 143-3]

**PART 61—CERTIFICATION: PILOTS AND FLIGHT INSTRUCTORS**

**PART 63—CERTIFICATION: FLIGHT CREWMEMBERS OTHER THAN PILOTS**

**PART 65—CERTIFICATION: AIRMEN OTHER THAN FLIGHT CREWMEMBERS**

**PART 67—MEDICAL STANDARDS AND CERTIFICATION**

**PART 141—PILOT SCHOOLS**

**PART 143—GROUND INSTRUCTORS**

**Changes in References to Agency Regulations, Position Title, and Certain Addresses**

The purpose of these amendments to Parts 61, 63, 65, 67, 141, and 143 of the Federal Aviation Regulations is to reflect in Parts 65 and 141 appropriate references to Part 430 of the Regulations of the National Transportation Safety Board; reflect in Part 67 an organizational change in the title of the FAA Assistant Administrator to FAA Regional Director; and update several references in the Regulations to the addresses to which applications for replacement of lost or destroyed certificates and certain other communications with the FAA are sent. These amendments also correct an inadvertent error made in a recent amendment to Part 65. On April 1, 1967, the aviation safety functions of the Civil Aeronautics Board, under titles VI and VII of the Federal Aviation Act of 1958, were transferred to the National Transportation Safety Board (49 U.S.C. 1651 et seq.). Thereafter the Board issued Part

430 of its Regulations pertaining to aircraft accidents, incidents, overdue aircraft, and safety investigations, effective November 10, 1969 (34 F.R. 15749). These amendments accordingly change the references in Parts 65 and 141 to Part 430 of the Regulations of the National Transportation Safety Board instead of to Part 320 of the Regulations of the Civil Aeronautics Board.

The organizational title of FAA Assistant Administrator has been changed to FAA Regional Director, and this change is reflected in the amendments to Part 67.

The addition of "Department of Transportation" and box numbers and zip codes to addresses found in Parts 61, 63, 65, 67, and 143 serve to clarify and modernize mailing addresses to which applications for lost or destroyed certificates and certain other communications with the FAA are sent.

In Notice 70-12 (35 F.R. 4862) it was proposed that an air traffic control operator should not be authorized to issue air traffic control clearances for IFR flight without authorization from the appropriate air route traffic control center. In issuing Amendment 65-15 pursuant thereto (35 F.R. 12326) it was stated that a tower may be under the jurisdiction of some facility other than an air route traffic control center, and that therefore the general phrase of reference "facility exercising IFR control" would be used. However, in the amended § 65.45(b) the phrase "air traffic control" was inadvertently used instead of "IFR control." These amendments correct that inadvertence by replacing "air traffic control" with "IFR control."

Notice and public procedure hereon are not required since these amendments merely reflect changes of law and procedures as well as the correction of an inadvertent clerical error, and they may therefore be made effective in less than 30 days.
