

Federal Aviation Administration

Memorandum

Date: DEC 12 2008

To: Manager, Manufacturing Inspection Office, ANM-108, ASW-180, ANE -180,
ACE-180

From: 
Frank P. Paskiewicz, Manager, Production and Airworthiness Division,
AIR-200

Prepared by: Airworthiness Certification Branch, AIR-230

Subject: **INFORMATION**: Request for deviation from Order 8100.15 for LifePort
Organization Designation Authorization (ODA)

This memorandum is in response to your request for deviation from Order 8100.15, Organization Designation Authorization Procedure (ODA) based on LifePort memorandum dated October 1, 2008. The Order only allows for the issuance of Export Airworthiness Approvals (function code 13064) for new products or newly overhauled class II products. LifePort is requesting a deviation to also allow export of class III new and rebuilt products (aeromedical systems) under their ODA.

This office understands the need for enhancing function code 13064 to also allow the issuance of export airworthiness approval for new or rebuilt class III products under 14 CFR §43.3 (J)(2).

The request for deviation is granted. The inclusion of this change will be made in the next revision to Order 8100.15.

If there are further questions, please contact a member of the Airworthiness Certification Branch, AIR-230, at (202) 385-6346.
