Introduction

The purpose of this Special Airworthiness Information Bulletin is to advise operators of Partenavia Model P68 series aircraft of the need to review the service bulletins listed below.

Background

The Small Airplane Directorate, Aircraft Certification Service, of the Federal Aviation Administration (FAA) conducted a review of the specified Partenavia airplane service bulletins. The purpose of the review was to evaluate each service bulletin to determine the continued airworthiness safety aspect. The options considered by the FAA included: mandated compliance by the initiation of an FAA Airworthiness Directive (AD), various forms of notices, or no further action required.

Recommendations

The service bulletins identified in this document were not considered appropriate for AD action at this time, however, the FAA strongly suggests that all operators of Partenavia Model P68 series aircraft review their compliance of the service bulletins listed below.

Service Bulletin No.	Date	Title
SB No. 90	November 30, 1993	Fuel Selector Control
