*certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part * of the * Regulations.*

Original Product--Type Certificate Number: (see attached FAA Approved Model List
Make: No. SE02555AT for list of approved models
Model: and applicable airworthiness regulations)

Description of Type Design Change: Consolidated Fuel Systems, Incorporated, 201F Series Fuel Pump Assembly on various Textron Lycoming Engine Models. Applicable fuel pump part numbers, approved revisions, installation and maintenance instructions, and engine models as shown on the attached Approved Model List (AML), sheets 1 through 3.

Limitations and Conditions: This approval should not be extended to other engines of this model on which other previously approved modifications are incorporated, unless it is determined by the installer that the interrelationship between this change and any other previously approved modifications will produce no adverse effect upon the airworthiness of that engine/aircraft. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission. Subject fuel pumps are to be installed, maintained and overhauled in accordance with Overhaul Manual dated as shown on the attached Approved Model List, sheets 1 through 3, or later FAA approved revision as required.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
