Arlington, WA 98223

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 25 of the Federal Aviation Regulations.

Original Product—Type Certificate Number: A20WE
Make: Boeing
Model: 747-200B

Description of the Type Design Change: This design change relocated the E/E bay access hatch on the main deck floor and installs cargo handling system provisions for a 30 pallet main deck cargo configuration. The Federal Aviation Administration (FAA) has approved the installation of Flight Structures, Inc. Master Drawing List 96FS624-D01, Revision B, dated September 18, 1996, or a later FAA approved revision.

Limitations and Conditions: Approval of this change in type design applies to the above model aircraft in accordance with STC SA2725CE-D, STC ST00255WI-D, STC ST00252WI-D (Serial Numbers 22304 and 22442 only), and STC ST00214SE only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this certificate and the FAA approved Flight Structures, Inc. Master Drawing List 96FS624-D01, Revision B, dated 18, 1996 or a later FAA approved revision, must be maintained as part of the permanent records for the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
