

Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SE508AL

This certificate, issued to Univair Aircraft Corporation
 Route 3, Box 59
 Aurora, Colorado 80011

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 13 of the Civil Air Regulations.

Original Product — Type Certificate Number: E-274
Make: Avco Lycoming
Model: O-320 series

Description of Type Design Change:
 Addition of crankcase relief valve, Stoddard Drawing No. 301, in accordance with Stoddard Installation Drawing dated October 18, 1973.

Limitations and Conditions: The approval of this change in type design applies basically to Lycoming O-320 series engines only. This approval should not be extended to other engines of this model on which other previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft.

This installation is permitted on a non-interference basis only.
This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: October 24, 1973

Date reissued: July 9, 1981

Date of issuance: November 12, 1973

Date amended:

By direction of the Administrator

Mark E. Baldwin
