Eagle Copters Ltd.
823, McTavish Road, NE
Calgary, Alberta T2E 7G9
Canada

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 7 of the Civil Air Regulations.

Original Product -- Type Certificate Number: HISW

Make: Bell

Model: 205A-1

Description of Type Design Change:

Reclassification to Category B, reduction of passenger seating configuration (9 passengers) to be completed in accordance with Eagle Copters Ltd, Installation Instructions IIN-D205-754, Revision A, dated October 18, 2007, Transport Canada approved October 18, 2007, or later Transport Canada approved revision.

Limitations and Conditions:

1. Eagle Copters Ltd. Flight Manual Supplement FMS-D205-754-1, Revision A, dated October 9, 2007, Transport Canada approved October 9, 2007, or later Transport Canada approved revision, is required when the helicopter is modified by both the installation of Honeywell T5317A, T5317B, or T5317BCV Engine and the installation of Bell 212 Main Rotor Blades in accordance with approved Supplemental Type Certificates.
2. Installation of the Honeywell T5317A, T5317B, or T5317BCV in accordance with FAA STC SR01496NY is required for this STC.
3. Installation of Bell 212 main rotor in accordance with FAA STC SH5132NM is required for this STC.
4. If the holder agrees to permit another person to use this certificate to alter a product, the holder must give the other person written evidence of that permission.
5. The Installer must determine whether this design change is compatible with previously approved modifications.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of Application: March 5, 2004
Date of issuance: July 27, 2004

Date reissued:

Date amended: April 28, 2005, April 08, 2008
