

Supplemental Type Certificate

Number SA11103SC

This Certificate issued to CenTex Aerospace Inc.
7925 Karl May Drive
Waco, TX 76708

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 23 of the Federal Aviation Regulations.

Original Product Type Certificate Number: A24CE
Make: Hawker Beechcraft Corporation
Model: 200, 200C, 200T, 200CT, A200 (C-12C), A200C (UC-12B), A200CT (C-12D), A200CT (C-12F), B200, B200C, B200C (C-12F), B200C (UC-12F), B200C (UC-12M), B200C (C-12R), B200T, B200CT, B200GT, B200CGT

Description of Type Design Change: Installation of commuter category safety systems to allow an increased maximum takeoff gross weight in accordance with: (1) Master Drawing List (MDL) No. 006-0000-0000, revision B, (2) "Installation Instructions" Drawing No. 006-0000-1000 Rev. A, (3) "Required Instructions for Continued Airworthiness (ICA)", Document 006-30, initial release, and (4) "Required Airplane Flight Manual Supplements (AFMS)" listed on Drawing No. 006-0000-1000, or later FAA approved revisions to items (1), (2), (3), and (4).

See continuation sheet 3 of 4

Limitations and Conditions: The installer must determine whether this design change is compatible with previously approved modifications. See instructions on Drawing 006-0000-1000 for determining compatibility. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: June 28, 2000

Date reissued: January 25, 2013; May 23, 2013

Date of issuance: October 16, 2012

Date amended:

By direction of the Administrator

Supplemental Type Certificate
(Continuation Sheet)

Number SA11103SC

Date of Issuance: October 16, 2012

Date of Reissuance: January 25, 2013; May 23, 2013

Description of type design change:

There are two options approved under this STC and these are described in Drawing No. 006-0000-1000.

Option 1: Installs the safety systems only. It does not change the airplane category, or weight limitation or airplane performance. Option 1, must be identified as the chosen option on the Form 337 that is entered in the airplane's records. The airplane cannot be operated at a gross weight greater than the weight limitations shown in the Beechcraft King Air 200 series basic Airplane Flight Manual/Pilot's Operating Handbook.

Or

Option 2: Installs the safety systems and increases the maximum takeoff weight limitation of 13,420 pounds by changing the airplane category from Normal to Commuter. In option 2, the maximum number of passenger seats is limited to nine. The pilot operating an airplane in accordance with with option 2, must possess the BE-200 type rating. Option 2, must be identified as the chosen option on the Form 337 that is entered in the airplane's records. The airplane airworthiness certificate must be reissued to show the airplane is now in Commuter Category.
