

Supplemental Type Certificate

Number SA2392WE

This Certificate issued to United Air Lines, Inc.
600 Jefferson Street
Houston, Texas 77002

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 25 of the Federal Aviation Administration. * (See Type Certificate Data Sheet A20WE).*

Original Product Type Certificate Number: A20WE

Make: Boeing

Model: 747-122

Description of Type Design Change: Modification of the Boeing 747-122 airplane by the installation of turbulent air tether system comprised of Fairchild Hiller Food Service Carts P/N 802000, 803000, and 804000 with restraint system installed and U.O.P. Aerotherm seats with restraint seats with restraint attach points incorporated in accordance with FAA Approved United Air Lines Drawing List entitled "Turbulent Air Restraint Food Service Carts".

Limitations and Conditions: This approval of this change in type design applies basically to the Boeing 747-122 airplane only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. This determination should include consideration of significant changes in weight distribution such as an increase in the fix disposable weight in the fuselage. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data, which is the basis for approval, shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
