Supplemental Type Certificate

Number SA00323WI

This certificate issued to
Cessna Aircraft Company
P.O. Box 7704
Wichita, KS 67277

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 23 of the Federal Aviation Regulations.

Original Product - Type Certificate Number : A37CE
Make : Cessna
Model : 208B all serial numbers.

Description of Type Design Change: Increase seating capacity to four places. The modification consists of the following: a) Removal of the cargo barrier close-out nets (2613337-1, 1 each and 2613337- 2, 2 each). b) Removal of partition nets (9910573-16, 2 each). c) Modify upper cargo door to remove cargo door handle spindle boss (2617000-1) and install inside door handle (5319026-1), lock plate (2617081-1), and attaching hardware. d) Install upper door operation placards (2605013-1). e) Install up to two aft single seat assembly (2614041-9 or 2614041-13). All parts are Cessna Aircraft Company parts numbers.

Limitations and Conditions : No cargo may be carried when either of the aft passenger seats are occupied. If cargo is to be carried, the barrier nets must be reinstalled and both aft passenger seats removed. It is the operator's responsibility to determine that the airplane remains within the safe weight and balance limits. Airplane Flight Manual supplement D1349-13 dated May 1, 1995, is required equipment for the 208B when this modification is installed. Compatibility of this design change with previously approved modifications must be determined by the installer

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
