

United States of America
Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SH752NW

This certificate, issued to Onboard Weighing Systems

*certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part * of the **

Regulations. * Federal Aviation Regulations 21.29 and 27

Original Product — Type Certificate Number: H1IN
Make: Aerospatiale
Model: Alouette III Series

Description of Type Design Change: Installation of weighing system in accordance with Onboard Weighing System Installation Instruction Drawing 2536.

Limitations and Conditions: Approval of this change in type design applies basically to the above model helicopter only. This approval should not be extended to other helicopters of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that helicopter. A copy of this Certificate and FAA Approved Rotorcraft Flight Manual Supplement shall be maintained as part of the permanent records for the modified helicopter.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: March 19, 1979

Date issued:

Date of issuance: April 12, 1979

Date amended:
