certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 25 of the Federal Aviation Regulations. (See Type Certificate Data Sheet No. T00001SE for complete certification basis.)

Original Product--Type Certificate Number: T00001SE
Make: Boeing
Model: 777-200 Series

Description of Type Design Change:

The modification installs (6) GTE Gentar bulkhead mounted phones in the passenger cabin as follows: (2) on the aft face of the F-2 galley, (1 ea.) on the aft face of the outboard closets at STA 730 and (1 ea.) on the outboard faces of the A-4 galley. In addition, handsets which were installed on the center consoles of the business class seats under Technical Standard Order TSO-C127, are connected to power and activated. This system will allow for multi channel public telephone air-to-ground communications as a passenger convenience. The installation is in accordance with Documentation Checklist AFD 70-2067-00, Rev. 2, dated January 12, 1998, or later FAA approved revisions.

Limitations and Conditions:

- 1) The approval of this installation applies basically to the Boeing 777-200 series only.
- 2) Compatibility of this design change with previously approved modifications must be determined by the installer.
- 3) If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
