Any alteration of this certificate is punishable by a fine of not exceeding \$1,000, or imprisonment not exceeding 3 years, or both. This certificate may be transferred or made available to third persons by licensing agreements in accordance with 14 CFR 21.47. Possession of this Supplemental Type Certificate (STC) document by persons other than the STC holder does not constitute rights to the design data nor to alter an aircraft, aircraft engine, or propeller. The STC's supporting documentation (drawings, instructions, specifications, flight manual supplements, etc.) is the property of the STC holder. An STC holder who allows a person to use the STC to alter an aircraft, aircraft engine, or propeller must provide that person with written permission acceptable to the FAA. (Ref. 14 CFR 21.120).

# Supplemental Type Certificate

(Continuation Sheet)

Number: SE7562SW  
Date of Issuance: March 15, 1989  
Reissuance Date: August 06, 2015

**Limitations and Conditions (Continued):**

Compatibility of this modification with airframe equipment and structural clearances must be determined by the installer. Engines modified in accordance with this STC will not differ in performance or operating limitations for unmodified engines.

Installation of the modified engine in the airframe is considered to be a minor change by definition in accordance with FAR Part 21.93. Due to the nature of the modification, no further FAA approval is required for the airplane.

Only the following filters are eligible for this installation:

Champion No. Ch48108  
A.C. No. OF-53A

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.
