Description of Type Design Change:

Installation of a modified alternate source of supply, engine ignition coil assembly and condenser in accordance with the data as listed on Approved Model List (AML) No. SE00809WI, dated August 2, 1999, or later FAA approved revisions.

Limitations and Conditions:

1. Approval of this change in type design applies to the above model engine(s) only. This approval should not be extended to engine(s) of this model on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that engine. A copy of this Certificate and FAA Approved Model List (AML) No. SE00809WI must be maintained as part of the permanent records of the modified engine.
2. This change in type design applies only to ignition coil assemblies and condensers which are modified, 100% functionally tested and inspected by the holder of this certificate at the above identified location.
3. Compatibility of this design with previously approved modifications must be determined by the installer.
4. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
