This Certificate issued to

Commuter Air Technology Inc.
7200 NW 63rd Street
Bethany, OK 73008

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 23 of the Federal Aviation Regulations.*

* Certification basis is set forth in Type Certificate Data Sheet A24CE.

Original Product Type Certificate Number: A24CE

Make: Raytheon Aircraft Company

Model: B300

Description of Type Design Change: Installation of a Wescam FLIR unit into an extended fuselage nose (STC SA00367SE) per FAA Approved Commuter Air Technology Master Drawing List J2MDL05-0035, Revision C, dated September 28, 2006, or later FAA approved revisions. FAA Approved Airplane Flight Manual Supplement CAT MX115-3, Revision new, dated November 14, 2006, or later FAA approved revisions is required as part of this installation.

Limitations and Conditions: STC SA00367SE must be installed in conjunction with this installation. The Wescam FLIR is limited to a Class I Laser. The installation should not be incorporated in any aircraft unless it is determined that the interrelationship between this installation and any previously approved configuration will not introduce any adverse effect upon the airworthiness of the aircraft. This approval of this modification applies to the above noted airplane model series only. A copy of this STC must be included in the permanent records of the modified aircraft. If the holder agrees to permit another person to use this certificate to alter a product, the holder must give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
