

United States of America
Department of Transportation -- Federal Aviation Administration
Supplemental Type Certificate

Number SA00702AT

This certificate issued to Basic Aircraft Products, Inc.
4474 Hickory Drive
Evans, GA 30809

certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 3 of the Civil Air Regulations.

Original Product -- Type Certificate Number : 3A21
Make : Cessna
Model : ()210()

Description of Type Design Change: Installation of a Basic Type BAE-14/28 Model 2025 Deployable Air Driven Alternator System in accordance with Basic Aircraft Products, Inc., Installation Kit, No. 45-2025-OPL, Rev. A, dated September 26, 1994 and Installation Manual, No. 80-2025-101, dated June 24, 1994, or later FAA approved revision.

Limitations and Conditions: This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this change and any of those previously approved modifications will produce no adverse effect upon the airworthiness of that airplane. FAA Approved Supplemental Airplane Flight Manual or FAA Approved Airplane Flight Manual Supplement, dated March 28, 1995, is a required part of this STC.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application : February 4, 1994

Date reissued : December 16, 2010

Date of issuance : March 28, 1995

Date amended :

By direction of the Administrator
