models and applicable airworthiness regulations

Description of the Type Design Change: Fabrication and installation of Landing Light Controller in accordance with Seaton Engineering Corp. FAA-approved Master Drawing, document 9750-005, Revision C, dated June 3, 2008, or later FAA-approved revision. This modification must be inspected and maintained in accordance with the FAA-approved Instructions for Continued Airworthiness (ICA), document number 9150-008, Revision C, dated July 17, 2008, or later FAA-approved revision.

Limitations and Conditions: Approval of this change in type design applies to only the aircraft listed on the approved model list. This approval should not be extended to models on which other previously approved modifications are incorporated unless it is determined by the installer that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. Aircraft modified in accordance with this STC must be operated in accordance with a copy of the FAA-approved Aircraft Flight Manual Supplement, document number 9150-009, Revision B, approved on July 18, 2008. A copy of this certificate, the AFMS, and the ICA, or later FAA-approved revisions, must be maintained as part of the permanent records of the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
