aircraft models and applicable airworthiness regulations

Description of the Type Design Change: Installation of Electronics International Inc. Glass Panel Engine Monitor (with In-Flight Data) CGR-30C in accordance with the applicable master drawing list as specified on AML SA02402SE, or later FAA-approved revision. This modification must be inspected and maintained in accordance with Electronics International, Inc. Instructions for Continued Airworthiness, Document No. 06211301, Revision E, dated March 28, 2014, or later FAA-accepted revision.

Limitations and Conditions: Approval of this change in type design applies to the airplanes listed on AML SA02402SE only. This approval should not be extended to other aircraft of these models unless the installer determines that the relationship between this change and any other previously incorporated approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this certificate, AML SA02402SE, the ICA, and the FAA-approved airplane flight manual supplement as specified on AML SA02402SE, must be maintained as part of the permanent records for the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
