P. O. Box 41027
Greensboro, NC 27455

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of **Aeronautical Bulletin 7A.**

Original Product—Type Certificate Number: 654
Make: Grumman
Model: G-21 and G-21A

Description of the Type Design Change: Modification of bulkhead Station 26, Blkd. Sta. 33, cabin floor from Sta. 13-29, and addition of buoyant tank between Sta. 29-31, in accordance with McKinnon Enterprises, Inc., "Master Drawing List #2, Modifications Bulkhead Station 26 Floatation Compartment Revisions." This installation applicable to Standard Grumman G-21/G-21A aircraft and to G-21A aircraft which have been FAA approved for operation at a maximum gross weight of 9200 lbs.

Limitations and Conditions: Approval of this change in type design applies to the above model aircraft only. This approval should not be extended to other aircraft of these models on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate must be maintained as part of the permanent records for the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
