

United States of America  
Department of Transportation — Federal Aviation Administration  
**Supplemental Type Certificate**

0024

Number SA2758NM

This certificate, issued to Intensive Air Care  
Hangar 6, Stapleton Intl. Airport  
P. O. Box 38307  
Denver, Colorado 80238

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 3 of the Civil Air Regulations.

Original Product — Type Certificate Number: A7CE  
Make: Cessna  
Model: 421C

*Description of Type Design Change:*

Installation of medical oxygen and suction system in accordance with Intensive Air Care Drawing Number 3922, dated June 18, 1986, FAA approved September 19, 1986 or later FAA approved revision.

*Limitations and Conditions:*

This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any other previously approved modification will introduce no adverse effect upon the airworthiness of the airplane.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: June 23, 1986
