

United States of America
Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SA3274WE

This certificate, issued to G and S Industries

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 3 of the Civil Air Regulations, effective May 15, 1956.

Original Product — Type Certificate Number: 3A21
Make: Cessna
Model: 210, 210A

Description of Type Design Change:

Installation of flap gap seal in accordance with sealed G and S Industries Report No. 03-76 dated April 1, 1976.

Limitations and Conditions: The approval of this change in type design applies to the basic aircraft of the specified models that are otherwise unmodified. This approval should not be extended to other aircraft of these models on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: March 2, 1976

Date issued:

Date of issuance: SEP 17 1976

Date amended:

By direction of the Administrator
