Supplemental Type Certificate

Number **ST00685SE**

This certificate, issued to **Raisbeck Commercial Air Group, Inc.
4411 South Ryan Way
Seattle, WA 98178**

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 4b of the Civil Air Regulations.

Original Product—Type Certificate Number: A3WE
Make: Boeing
Model: 727-200

Description of the Type Design Change: Modification in the leading edge slat and trailing edge flap configurations and installation of an external mixer nozzle to each engine accomplished in accordance with Raisbeck Commercial Air Group, Inc., Master Drawing List 98B70001, Revision G, dated March 30, 1999, or later FAA approved revision. Modified aircraft complies with FAR Part 36, Stage 3 noise limits when operated in accordance with the appropriate FAA Approved Airplane Flight Manual Supplement.

Limitations and Conditions: Approval of this change in type design applies specifically to the airplane model listed above. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the inter-relationship between this change and any of these other previously approved modifications, including changes in type design, will neither introduce adverse effects upon the airworthiness of that aircraft nor change the certification status under Part 36. Modified aircraft shall be operated in accordance with the appropriate FAA Approved Airplane Flight Manual Supplement. A copy of this certificate and the FAA Approved Flight Manual Supplement shall be maintained as part of the permanent records for the modified aircraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

(See Continuation Sheet Page 3 for additional Limitations and Conditions)

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: August 6, 1998

Date reissued:

Date of issuance: April 1, 1999

Date amended: May 26, 1999, November 16, 1999

By direction of the Administrator

Issued to: **Raisbeck Commercial Air Group, Inc.**

Amended: **May 26, 1999, November 16, 1999**

Limitations and Conditions: (continued)

Definition of the Changes

This Supplemental Type Certificate (STC) approves a design for the modification of eligible Boeing Model 727-200 series airplanes that changes the stop position of the leading edge slats, prohibits the use of the Flaps 40 position under normal operation, replaces each engine external nozzle with a twelve lobe mixer nozzle, and modifies the thrust reverser aft fairing to allow for installation of the nozzle. The design also includes optional incorporation of a Flaps 28 position.

The modified airplanes comply with FAR Part 36, Stage 3 noise limits when operated in accordance with the appropriate Raisbeck Commercial Air Group, Inc., Airplane Flight Manual Supplement.

Airplane/Engine Combinations

Boeing Model 727-200 series airplanes equipped with Pratt & Whitney Model JT8D-17R/-17AR/-17/-15 engines operated at the thrust level specified by the pertinent Raisbeck Commercial Air Group, Inc., Airplane Flight Manual Supplement.

Eligible Serial Numbers

Eligible Boeing Model 727-200 series airplane Serial Numbers are listed in the applicable FAA approved Raisbeck Commercial Air Group, Inc., Airplane Flight Manual Supplement.

Information:

The following Raisbeck Commercial Air Group, Inc., documents are essential for the operation of the airplane modified in accordance with this STC, and they must be provided to the operator of the modified airplane:

Installation and Rigging Instructions
Airplane Flight Manual Supplement
