

United States of America
Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SA823NW

This certificate, issued to S.T.C. Bee, Inc.

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 03 of the Civil Air Regulations:

Original Product — Type Certificate Number: A-769

Make: STOL (Republic)

Model: RC-3

Description of Type Design Change: Installation of an overhead control quadrant in accordance with S.T.C. Bee, Inc., Drawing 1-0C.

Limitations and Conditions: Approval of this change in type design applies basically to the above model aircraft only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft. A copy of this Certificate shall be maintained as part of the permanent records for the modified aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: August 12, 1979

Date reissued:

Date of issuance: August 16, 1979

Date amended:
