Description of the Type Design Change: Fabrication of AMC AM369H8092 engine cooling duct orifice in accordance with AMC Master Drawing List No. MDL-AMC-012, Revision A, dated December 6, 2002, or later Federal Aviation Administration (FAA) approved revision. The orifice must be installed in accordance with AMC Installation Instructions MI-02002, Revision A, dated November 20, 2002, or later FAA approved revision. This modification must be maintained in accordance with AMC Instructions for Continued Airworthiness MI-02006, Revision IR, dated January 27, 2003, or later FAA approved revision.

Limitations and Conditions: Approval of this change in type design applies to the rotorcraft models listed above only. This approval should not be extended to other rotorcraft of this model on which other previously approved modifications are incorporated unless it is determined that the relationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effects upon the airworthiness of that rotorcraft. A copy of this Certificate and Instructions for Continued Airworthiness must be maintained as part of the permanent records of the modified rotorcraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
