

Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SH539NW

This certificate, issued to Onboard Weighing System

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 6 of the Civil Air Regulations.

Original Product — Type Certificate Number: 4H11
Make: Hiller
Model: UH12E and 12E-4 Series

Description of Type Design Change: Installation of Onboard Weighing System in accordance with Onboard Weighing System Installation Instructions dated March 5, 1977, and Drawing List #1016 Assembly.

Limitations and Conditions: Approval of this change in type design applies basically to the above helicopter only. This approval should not be extended to other helicopters of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that helicopter. A copy of this Certificate, Onboard Weighing System Installation Instructions dated 4/5/77 and Drawing List #1016 shall be maintained as part of the permanent records for the Helicopter.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: September 29, 1977

Date reissued:

Date of issuance: November 23, 1977

Date amended:

By direction of the Administrator

D. L. Ruggin
